Webinar: Using Technology to Mitigate the Impacts of the COVID-19 Pandemic on Prosecutors' Offices

Date: Wednesday, June 10, 2020

Time: 1:00 - 2:00 pm EDT

The current pandemic has led prosecutors' offices around the country to lean on technology as they transition much of their work to virtual platforms. We are partnering with SEARCH, The National Consortium for Justice Information and Statistics, to bring you a webinar focusing on Prosecutor Case Management Systems (PCMS) and the use of technology to mitigate the impacts of COVID-19 to these offices. This webinar will highlight how to use technology to reduce the need for in-person interactions; specific ways to use a PCMS for e-filing, e-referrals and discovery; and how to acquire these technologies. Please join us for this webinar on **Wednesday, June 10, 2020 from 1:00-2:00 PM EDT** to learn more about these systems.

This webinar will be an interactive session featuring Mark Perbix, Director of SEARCH's Information Sharing Program and Michael Jacobson, SEARCH Information Sharing Specialist.

To ensure that we are addressing your concerns, please share any specific topics that you would like addressed during the webinar (e.g., specific questions about case management software). Please enter your questions when you register.

Note: There is no cost of attendance for this webinar. The National District Attorneys Association (NDAA) will be applying for CLE credits in the state of Virginia.

Register

Mark Perbix

Mark Perbix is Director of Programs for SEARCH and responsible for coordinating activities among SEARCH's four program areas - Information Sharing, Law and Policy, Software and Data Engineering and High-Tech Crime Training. He is also Director of SEARCH's Information Sharing Program, which supports information sharing and the use of technology by national, state, local, and tribal justice and public safety agencies and organizations. Services include consulting and facilitation, strategic planning for information sharing and technology deployment, business process modeling and analysis, performance management, application of technology standards, and developing effective governance and funding models

Michael Jacobson

Michael Jacobson is an Information Sharing Specialist for SEARCH where he supports justice and public safety agencies nationwide to improve their use of technology and information sharing in mission-critical projects and initiatives. He assists in all facets of information sharing capability development including strategic planning, architecture development, business process modeling and analysis, service specification development, and performance management. Mr. Jacobson was the lead consultant on a project that resulted in the development of state criminal history repository profiles for all 50 states on behalf of the PAC PMO and DCSA. He continues to work on a project to inventory the contents of rap sheets provided by over 40 states to develop rap sheet guides for investigators and adjudicators with DCSA.

We want to hear from you! If you would like to submit questions or have other concerns, please email us at covid19_courts@cna.org.

COVID-19-related news articles and resources, and past bulletins will be posted on the [NDAA website](#). Continue to check the website for updated information.
