

THREE OF THE WORST CRIMES COMMITTED AGAINST CHILDREN ARE RAPE, MOLESTATION AND INACTION.

The worst thing you could do to a young victim of sexual assault is to not take action. Yet less than 35% of all child molestation cases are ever reported to law enforcement. So when a child does summon the courage to disclose to you, it's vitally important to listen, believe, understand and act. To report child sexual exploitation, call the police. Then call us at 1-800-843-5678 or contact us at www.cybertipline.com. Sexual assaults on children occur daily. So when a victim does come forward, remember that your actions speak much louder than words.
