The Honorable Members of the 119th Congress
U.S. Senate
U.S. House of Representatives
Washington, D.C.

May 27, 2025

Dear Members of the United States Senate and United States House of Representatives,

We, the undersigned elected and appointed chief prosecutors, line prosecutors, heads of state prosecutor associations, and prosecutorial staff, are joining the National District Attorneys Association (NDAA) to express our strong support for the Victims of Crime Act (VOCA) which provides vital funding to victims of violent crime. Specifically, we urge Congress to support and pass the Crime Victims Fund Stabilization Act, which provides immediate relief to victims as VOCA currently faces financial uncertainties.

As you know, VOCA is the primary source of federal funding for thousands of victim service providers across the nation, including programs serving victims of domestic violence, sexual assault, child abuse, trafficking, and drunk driving. VOCA also funds victim compensation through restitution, which helps survivors pay medical bills, make up for lost wages from extensive court dates, and in the most severe cases, helps pay for funeral costs.

Additionally, VOCA funding is non-taxpayer sourced and is supported by monetary penalties associated with federal criminal convictions and deferred and non-prosecution agreements. These penalties are deposited into the Crime Victims Fund (CVF), and Appropriators decide how much to release from the CVF every year.

Unfortunately, criminal prosecutions and fines associated with these crimes are inconsistent and fluctuate in frequency and monetary value. Recently the CVF has experienced a number of years of concerningly low deposits. At the same time, the need for these services continues to grow. Congress passed the bipartisan, bicameral VOCA Fix Act in 2021 to help stabilize the CVF. The law directs all penalties/fines collected by DOJ in criminal prosecutions into the Fund. But even with these additional deposits, the CVF has not yet recovered to be able to fully fund critical and much needed services.

The Crime Victims Fund Stabilization Act would provide the necessary stream of funds for several years, allowing the CVF to have a consistent level of funding to adequately support victim services. The Crime Victims Fund Stabilization Act would provide this relief by redirecting unobligated funds collected through the False Claims Act to the CVF for several years. The False Claims Act assesses individuals and companies with penalties that defraud government programs which can include billing for services that were never rendered, providing unnecessary services, or misrepresenting the quality of services, generally in the healthcare industry.

Without stable and consistent funding, the lack of CVF resources will have the most severe impact on the smallest programs, particularly programs in rural communities, and low-income communities. Potentially hundreds of thousands of victims nationwide will lose access to lifesaving and life-sustaining child abuse, domestic violence, sexual assault, elder abuse, and other victim services. Without access to these critical services, the real-time impact will not only be felt by individuals and families, but also in communities nationwide.

Victims and survivors urgently need a mechanism to provide immediate funding to VOCA for it needs consistent funding to provide stability, justice, and a pathway to healing for victims and survivors. We thank you for your willingness to consider supporting the Crime Victims Fund Stabilization Act and victims of violent crime.

Sincerely,

Alabama:

Malory Hatfield Hussey, Assistant District Attorney, AL
Russell County District Attorney's Office, 26th Judicial Circuit, AL
Trisha Mellberg Cater, Executive Director, Alabama Office of Prosecution Service
